Message From The 校長的話 **Trincipal**

"LOVE to LEARN, LEARN to LOVE"

t has been a few months since the pandemic started. Indeed, it is very challenging for every colleague, parent and student during this difficult time. However, I am so grateful to have a team of dedicated teachers and staff to work together at this critical moment. And I would like to show my deep gratitude for their continuous support, commitment and hard work. 'What can we do in the face to the pandemic?' We can take this opportunity to develop the ethical qualities of the students and nurture them to become all-round individuals who love and care for others. The school and the parents always play different roles to achieve the same goal - we join hand in hand to provide a caring and respectful environment to our students, and also cultivate our students' potential with our quality education.

The world is changing and we are facing a multi-dimensional society. How do we prepare our students to respond to needs and changes of 21st century? I believe that providing quality learning experiences and quality whole-person education is very important to our next generation, so that they could adapt to the ever-changing environment and could well handle the subsequent stages of education and lifelong learning.

In the future, we will continue to work with dedication and strive for excellence by providing a Joyful and Loving environment to our students. Let them Think critically, Make a difference to change their world and Life and Dream of their better world.

In the world of e-learning our students are no younglings.

From 2011 to 2014, with the grant from the Education Bureau, the Pilot Scheene o-learning in School: PLPKnWederning, was launched at Key Stage 1 (P.1-91). The scheene was a great success and benefited both the students and teachers. Interactive whiteboards have been installed in all classrooms and students can enjoy complete WiFi-Eoverage on campus.

After years of enhancement, the implementation of e-Learning has gone beyond PowerPoint and e-Books: our students are familiar with programming, researching and doing group work with tablets. Also, distance learning allows our students to interact with mainland students.

Further e-learning enhancement schemes will be introduced to equip our students with the IT skills necessary for challenges in the ever-evolving IT world.

TKPM Hightlights of 2019-20: Reading Promotion 田千亮點:中英文閱讀推廣

Reading opens up new worlds Reading sessions give you more than words

We read for knowledge, we read for a better future, and most importantly, we read for FUN! To help our students cultivate an interest in reading, this year, Fun Reading (one daily morning session and one biweekly Friday session) has been introduced. During this time, students can enjoy reading English or Chinese books with their class teachers.

On the first, second and third floor (P.1-3), the **Reading Garden** was created. At recess, students can enjoy the Chinese and English magazines graded according to the difficulty of the language. The newly opened **Reading Café**, located on the ground floor, is the best corner where students can enjoy food and drinks, immersing themselves in the books recommended by teachers.

閱讀之旅 為每個孩子帶來不一樣的膽驗和經歷 無論早晨或閱讀課 約定你們出發了……

閱讀,是孩子一生追求的事情。有見及此,本年度學校大幅度 便化了學校的閱讀設施和環境,同時也增加了不同的閱讀時段 以鼓勵學生閱讀。在每天早晨上課前,設有「閱讀越樂」時段, 每班的班主任和學生一起閱讀中文或英文圖書。此外,建星期 五下午更設有午間閱讀時段,延續學生閱讀的時間,讓他們可 繼續享受閱讀之樂趣。在一至三年級樓層,佈置了舒適的「閱 讀花園」草地,裡面櫃放了程度合適的中、英文雜誌,讓學生 可在小息時拜訪,自由選取知減豐富的雜誌閱讀。在學校地下 則設置了趣致高心的「閱讀Café」,老師邀請學生成為尊貴客 人,參與「閱讀Café」內的圖書共享。學生可一邊吃點心, 一邊閱讀を舒精選的圖書或繪本,靜靜地、忘我地享受閱讀帶 來的無限樂趣。

Storytelling

This academic year. our P5 students participated in English storytelling workshops. The purpose of these storytelling workshops was to promote and develop a love of reading, stimulate the use of imagination and enjoyment in reading and telling stories. An experienced Native English Teacher (NET) conducted the workshops and read stories to students using visual aids, PowerPoint presentations and props. These materials were all used to tell the stories, introduce characters and discuss themes. The NET engaged students by asking questions throughout the sessions and follow up English educational games were played to reinforce what was learned.

英文講故事工作坊讓孩子愛上英文閱讀

本學年於小五年級推行了英文講故事工作坊,目的乃通 過英文講故事去推動英文閱讀,刺激學生的想像力,以 及享受英文講故事的樂趣。工作坊由富經驗的外籍英文 老師負責帶領,通過視訊和體報等和學生一起討論故事 角色和主題。此外,外籍英文老師亦會以提問、遊戲等 活動來加強學習效果。

his year, we are a Seed School of the Education Bureau's (EDB) Seed Projects, Under the sub-project Enhancing Self-regulated Learning of Students: Planning of Reading and Usage of Reading Strategies in Primary Chinese Language, a picture book curriculum for Primary 1 students, has been developed to arouse their interest in reading and foster their moral development. Every month, their teachers read them a picture book from a well-chosen selection by the Education Bureau's support team and our teachers. Each book comes with a school-based student booklet for note-taking and sketching. With Cantonese being the medium of instruction and no assessment given, students can enjoy reading with their parents and teachers.

The big dream of

starts from the small hands of our kids.

Our students 'dare to think, dare to make and dare to dream', so do inventors. Our STEAM (Science, Technology, Engineering, the Arts and Mathematics) curriculum aims to unearth students' potential in invention and innovation. With whole-school efforts. their interest in science, creativity and collaboration skills can be nurtured.

The curriculum has adopted the 3Ps approach -Problem-based Learning, Project-based Learning, and Proactive Learning, covering programming, mechanics, science exploration, 3D printing applications, etc. Our senior students can go beyond theories in class; their first works include Smart Automatic Doors and Smart Traffic Lights. Someday in the future, their fruitful experiences in a small classroom may become the cornerstone of inventions that change our big world.

BPS STEAM課程 成就學生成為小小發明家

學校本年度的STEAM課程配合學校理念,以「敢想、敢創、 敢夢Dare to THINK, Dare to MAKE, Dare to DREAM」為 課程目標。因此,學校的STEAM課程包括多元化的活動,例 如編程的概念、機械的原理、科探的理論、3D打印的應用...... 而全校的學生和老師也會參與其中,為學校營造出強烈的 STEAM文化。

另外,STEAM課程以3Ps為學習核心轉向,在學習的過程中能提升學生的解難能力(Problem – based Learning),並以專題的學習轉向(Project – based Learning),培養學生互動合作的精神(Proactive Learning),從而培養學生的科創能力、創造力和協作能力,希望學生們能勇於嘗試,不斷創新,不怕失敗,經歷不一樣的學習,並能發明出一些有用的小發明、大發明,幫助解決日常生活的難題,甚至能改善人類的生活,成就他們更高更遠大的夢想,成為一個「田千發明家」。

在高年級STEAM課堂,學生有機會製作不同的STEAM作品,包括智能自動門、智能交通燈等充滿創意的作品。

Unlock the secret of love with six Love Passwords

The six values (the Love Passwords) of our moral education are Respect, Care, Responsibility, Perseverance, Thanksgiving, and Reflection. Secrets Codes (relevant quotes) corresponding to the Love Passwords are put up on the notice board as daily reminders.

This year is the Year of Respect. Our focuses are Respect Yourself, Respect our Peers, Respect our School and Respect our Society. All students are given an activity booklet, Love Passport, with which they can learn about respect from stories and collect feedback from their parents and teachers. Slogans in the Love Passport are put up around the campus and printed on reward stickers.

六大核心價值教育 調胶孩子匀瞩的人生

本校為培育學生成為一個愛人、盡責、堅持和懂自省的人,特別在道德教育中注入六大核心價值一變的密碼(Love Password),包括: 轉重、閱愛、有責任威、堅毅、威恩和反思。而19-20年度是轉重之年 (Year of Respect),學校設計了Love Passport/小冊子以鼓勵學生實踐尊重自己、專重朋友、專重學校和專重社會的四大範疇。同時,鼓勵學生為六個愛的密碼找出相應的神秘金句。神秘金句會定期在告示板顯示,時刻提醒學生六大核心價值。小冊子中亦加入「老師打氣 妨」和「家長回應」的互動部份,以提高老師及家長的參與。而在校園四周也貼上18款Love Password標語,標語並印製成貼紙,由老師獎勵好行為的學生。

At lunchtime, Love Ambassadors (student helpers) hold Booths of Respect (game booths) and give the Broadcast of Respect, sharing inspiring stories and educational videos. They also helped design four Boards of Respect (display boards).

除Love Passport外,亦有一系列胶本輔導活動,以鞏固尊重的該心價值。如:

1. 至「尊」遊樂場

於午息時段由愛心大使協助舉辦有關「尊重」的小型攤位遊戲。

2. 至「尊」登機閘

由愛心大使協助設計4個以「尊重」為主題的告示板。

3. 至「尊」廣播站

由愛心大使於午膳時段播放關於尊重的短片和故事。

SHOW our LOVE

The class suspension due to the COVID-19 provided a golden opportunity for our students to learn from home. They could share their thoughts and talents with our SHOW our LOVE project.

The self-reflection assignment helped our students understand the importance of gratitude for what they have, from learning opportunities to social resources, and showing their care for their loved ones and people in need.

Students shared what they saw and the lessons they learnt during the pandemic in creative ways, with graphic works, such as paintings and photographs; videos of short singing and dance performances, and the list goes on. They are uploaded to the Online Stage, where students can appreciate each other's excellent works.

Reach for the stars

田千印記

Passion is a star that guides

 ${\mathscr L}$ aughter can flatten the mountains you climb

Keep trying till you reach the sky

Time is not your friend when you stumble

Keep your head up and luck will follow

Patience will carry you through the dark tunnel

Maybe you don't want to grow

逃 天 回

Perhaps you don't know where to go

Someday, you will be a diamond that glows
