

14<sup>th</sup> February 2025

Dear Principal Chan,

I know that we should save the Earth. Therefore, I can do the following things at school:

To reduce paper waste, I can write on both sides of the paper, make things with old paper and use scrap paper.

To reduce plastic waste, I can use a reusable water bottle, use a reusable straw and use a reusable bag.

To reduce food waste, I can compost unwanted food, eat my food and save food I do not eat.

I promise I will use the 3rs and save the Earth.

From,

3A Jessie Wan
