

13th February 2025

Dear Principal Chan,

I know that we should save the Earth. Therefore, I can do the following things at school:

To reduce paper waste, I can write on both sides of the paper and make things with old paper. To reduce plastic waste, I can use a reusable straw, use a reusable water bottle and use a reusable bag. To reduce food waste, I can compost unwanted food, save food I do not eat and eat my food.

I promise I will reduce, reuse and recycle everything that I can.

Yours sincerely,

3D Verna Kwok
