

Mother's Day

Mandy and her brother Alan are at the large flower shop in the afternoon because today is Mother's Day. They want to buy beautiful flowers for their mother. They feel excited because they buy many kinds of flowers for mum. The flowers are beautiful.

Next, there are angry bees, they fly near them. Alan starts looking around, tries to look for the noise. They are curious because they don't know what is happening.

Then, Mandy throws away the attractive and beautiful flowers because they are frightened. They are afraid of the angry bees that follow them to the entrance of the house.

In the end, they run back home and feel disappointed in themselves. They feel guilty. They go home with a lot of injuries. Their mums are worried. What a sad day.
